

**The Corps Foundation Advocacy Toolkit
2023-2024- 118th Congress**

Welcome to the Corps Foundation's Advocacy Toolkit! This Toolkit is a one-stop source of information for the public, visitors, cooperating associations, friend's groups, foundations, educational partners, local communities and other 501(c)(3) nonprofits to join in supporting the US Army Corps of Engineers (USACE) Natural Resources Management (NRM) Program. Use this toolkit to access the Corps Foundation's most recent advocacy proposals. Information provided will assist individuals, organizations, and local communities in developing an advocacy strategy in their area of interest.

About The Corps Foundation:

The Corps of Engineers Natural Resources Education Foundation, d.b.a. the Corps Foundation is a non-profit, 501(c)(3) dedicated to supporting the USACE Recreation and Natural Resources Management programs. The Foundation is fully managed and operated by an all-volunteer Board of Directors comprised mostly of USACE retirees with decades of experience working in the recreation and natural resources management program.

This 2023-2024 Advocacy Toolkit:

- (1) provides available search links, source information and data about the US Army Corps of Engineers (USACE) Recreation and Environmental Stewardship (NRM) program,
- (2) identifies 118th US Congress House and Senate members, including their committee and subcommittee assignments,
- (3) identifies our current advocacy appeals and initiatives and
- (4) provides links to retrieve suggested appeal letters for your use to contact and encourage Congressional support of legislation favorable to the USACE NRM program.

Working Together: Your involvement is critical to our advocacy and to ensure the continued access to USACE public lands and waters. Many individuals and organizations have made local investments that help maintain and improve USACE parks and the natural environment. We believe by working together, it increases opportunities for success.

Current Congress: The 118th Congress is currently in session and considering legislation that affects the operations and maintenance activities of USACE NRM program. We ask you please voice your support by contacting local and national policymakers requesting they favorably pass the legislation targeted in this guide.

****Important Notes****

Please share this toolkit with others.

Toolkit is displayed in Excel and PDF Formats. Download each since they provide individual capabilities.

Excel Format:

- (1) Ability to Sort & Filter Column Data
- (2) Column Headers hyperlinked for access to related online site data and information.

PDF Format:

- (1) Read Only Version - Easier to Read
- (2) No Ability to Sort & Filter Column Data

Toolkit updates may periodically occur with changes at election cycles, in USACE NRM Program data and in advocacy appeals and target legislation. We will keep this site up-to-date as needed.

How-to-Use the Toolkit:

Toolkit contains Sections-Tabs 1, 2, 3, 4. Each covers specific information including search links, source information and data.

Section-Tab 1: Search Links:

Links to Corps Foundation Website and Facebook Page to view currently posted Calls for Action, Advocacy Alerts and Appeal Letters. Postings are titled "Advocacy Alert! Please U.S. Contact Congressional Legislators Immediately".

Postings include a suggested appeal letter for contacting legislators and encouraging support of proposed legislative language and pass legislation favorable to the USACE NRM program. Personalize each letter to include your and your organization's viewpoint. Participation increases an advocacy issue's visibility, significance and a resulting positive outcome.

Site Specific Search links for easy access to information.

Section-Tab 2: Target Legislation and Advocacy Issues:

Defines current 2023-2024 Corps Foundation Advocacy Issues. These issues target specific legislation, encouraging beneficial changes to USACE NRM's ability to maintain or advance programs from recreational facility improvements to wildlife protection and habitat enhancements. The following is a summary of listed advocacy issues in Section-Tab 2.

Passage of the LAKES Act: (1) Cooperative Joint Management - Allow non-federal public entities and nonprofit organizations to cooperatively manage parks, collect, retain, and reinvest user fees at the project where collected. (2) Fee Retention- the LAKES Act will include authority for the US Army Corps of Engineers to retain up to 80% of recreation use fees to be reinvested directly to the Corps project where the fees were collected. This gives local managers the flexibility to repair infrastructure and complete maintenance with funds already paid by the visiting public. This long awaited authority will allow the U.S. Army Corps of Engineers to join other Federal land management agencies such as the National Park Service, Forest Service and Bureau of Land Management in retaining recreation fees.

Acquire New Authorities: Use appropriated funds on volunteer recognition. Use Recreation Fees to cover Recreation.gov contract management and support costs and for full refunds to visitors. Use appropriated funds to set up cooperative agreements with adjacent federal or non-federal public entities managing similar environments and facilities.

Establish a Public Lands Restoration Fund: Provide authority to address recreation facilities maintenance backlog. Direct funds retained for extraction of resources on public lands similar to funding provisions in the Great American Outdoors Act.

Federal Lands Transportation Program: Dedicate \$16 million for each of fiscal years 2024 - 2028. Provides critical Legislation: Appropriations Bill Fiscal Year 2024

Operations and Maintenance Funding: Allocate not less than \$295,000,000 in FY-2024 Recreation Program funding to continue the existing level of operation, maintenance, and repair of recreation facilities and public access. This represents the same amount as enacted for FY 2022's Recreation Program budget.

Infrastructure Maintenance and Repair Funding: Increase FY 2024 Recreation Program funding in the Operations and Maintenance Account, Other Authorized Project Purposes to allocate not less than \$40,000,000 to continue the repair of existing recreation facilities including unfunded infrastructure maintenance to sustain existing facilities at full capacity.

Section-Tab 3: USACE Recreation Project Name, US Congress Members, Visits and Value to Nation:

State-by-State listing of each USACE Recreation Project, its US Representative District, Representative(s) and Senators.

All Column Headers are hyperlinked for access to related online site data and information.

Column Header "Value to Nation by Visitation" is hyperlinked to view every USACE Recreation Project social, economic and environmental benefits data for 2021. Once at the Recreation Fast Facts Report page, select any Project/Lake you're interested in to view its specific information.

To view the top 25 USACE Recreation Projects, first sort the Visitation column "Largest to Smallest". They will align in descending order in column "Value to Nation by Visitation".

Section-Tab 4: Identifies 118th Congressional Members Committee/Subcommittee Assignments

These Members are Responsible for Legislation Affecting the USACE NRM Program - (1) Appropriations & (2) Water Resources Development Act (WRDA) 2022 2024.

Please note:

Some Committee/Subcommittee Members have NO USACE Recreation Project in their Jurisdiction. They are highlighted in Yellow in Tab 4.

This Section-Tab is displayed in Excel and PDF Formats.

In Excel Format:

(1) Ability to Sort & Filter Each Column's Data by Name, State, US House District and Committee/Subcommittee

In PDF Format:

(1) Read Only Version - Easier to Read

(2) No Ability to Sort & Filter Column Data

(1) Fiscal Year 2024 Appropriations Bill - Congressional Members Committee & Subcommittee Appointed NRM Program Annual Funding:

(APPROP S) US Senate Committee on Appropriations

on an annual basis. Appropriations are limited to the levels set by a Budget Resolution, drafted by the Senate Budget Committee.

(APPROP H) US House Committee on Appropriations

These policymakers write the legislation that allocates federal funds to the US Army Corps of Engineers (Civil Works) on an annual basis.

(EWD S) US Senate Subcommittee on Energy and Water Development

(EWD H) US House Subcommittee on Energy and Water Development

These Senate and House policymakers write the legislation that allocates federal funds to the US Army Corps of Engineers (Civil Works) on an annual basis.

(2) Water Resources Development Act (WRDA) 2022 - Congressional Members Committee & Subcommittee Infrastructure & Environmental Policy:

(EPW S) US Senate Committee on Environment and Public Works

These policymakers oversee federal energy and environmental policy as well as our nation's transportation and infrastructure systems.

(T&I S) US Senate Committee on Transportation and Infrastructure

These policymakers' oversight and legislative responsibilities include Transportation, Federal Highway Administration, Public Buildings, Water Resources Development Act (WRDA)

(T&I H) US House Committee Transportation and Infrastructure

These policymakers have jurisdiction over all modes of transportation; they also have jurisdiction over other aspects of our national infrastructure.

(WRE H) US House Subcommittee on Water Resources and Environment

These policymakers oversee federal energy and environmental policy as well as our nation's transportation and infrastructure systems. Their oversight and legislative responsibilities include Transportation, Federal Highway Administration, Public Buildings, Water Resources Development Act (WRDA).

(3) Revenue Policy - NRM Program Fee Retention:

(W&M H) US House Committee on Ways and Means

These policymakers exercise sole jurisdiction over revenue-raising matters such as fee retention, required to finance the federal government.

Water Resources Development Act (WRDA) 2024

2023-2024 Legislative Request Active and Underway:

We Need Your Support! Corps Foundation Announces LAKES Act Legislation!

Click this link to read about this legislation and take action - [Corps Foundation Facebook Page](#)

Contact your Senator and Congressional representative to encourage their support for America's lakes and waterways managed by the U.S. Army Corps of Engineers and specifically mention the LAKES Act.

2023-2024 Requests Planned but not yet Initiated:

(1). Request: Establish a Public Lands Restoration Fund

What: Establish a funding program for US Army Corps of Engineers (USACE) Recreation business line backlog maintenance needs similar to the Great American Outdoors Act. Provide authority to establish, fund, and provide for the use of amounts in a US Army Corps of Engineers (USACE) Public Lands Restoration Fund to address recreation facilities maintenance backlog. The fund must be used for priority deferred recreation facility maintenance. For each of fiscal years 2024 through 2028, there shall be deposited in the Fund an amount equal to 50 percent of all energy development revenues due and payable to the United States from oil, gas, coal, or alternative or renewable energy development on USACE Federal land and water credited, covered, or deposited as miscellaneous receipts under Federal law in the preceding fiscal year. Amounts deposited in the Fund shall be available to the Assistant Secretary of the Army, Civil Works, without further appropriation or fiscal year limitation. The Assistant Secretary of the Army, Civil Works may accept public cash or in-kind donations that advance efforts to reduce the deferred maintenance backlog; and encourage relevant public-private partnerships.

Why: This restoration fund would be dedicated to the elimination of unfunded infrastructure needs in support of public recreation facilities managed by USACE, similar to the Great America Outdoors Act.

Impact: Directs funds retained for extraction of resources on public lands to the benefit of the public using the recreation facilities similar to the funding provisions in the Great American Outdoors Act.

Process: Request the Committee/Subcommittee reach out to USACE for drafting services or identify options to bring USACE in line with the benefits the other land management agencies receive.

(2). Request: Use Recreation Fees to Cover Recreation One-Stop (Recreation.gov) Contract Management and Support Costs and Full Refunds to Visitors

What: Provide US Army Corps of Engineers (USACE) ability to use recreation fees to cover Recreation One-Stop contract management and support costs, as well as full refunds to visitors

Impact: Improves customer service and streamlines administration processes. Allows for greater flexibility in response to visitor requests.

Process: Request the Committee/Subcommittee reach out to USACE for legislative drafting services or identify options to bring USACE in line with the benefits the other land management agencies receive.

(3). Request: Provide ability to spend appropriated funds on volunteer recognition as part of incidental expenses.

What: Provide USACE the ability to spend appropriated funds on volunteer recognition as part of incidental expenses. Amend Chapter IV of title I of Public Law 98-63 (33 USC 569c) by inserting after the first sentence "Appropriated funds may be used for the purchase of non-monetary awards for volunteers as recognition for their contributions to USACE programs."

Why: USACE manages 12 million acres of land and water in 43 states. In 2021 volunteers provided 1,559,839 hours of service valued as \$44.5 million. 76% of USACE recreation projects utilized 18,274 volunteers yet are limited in ability to recognize these critical and valued individuals. Currently, USACE is prohibited in using appropriated funds to purchase non-monetary awards for volunteers.

2023 09-01 Corps Foundation 2023-2024 Advocacy Toolkit.xlsx
Section-Tab 2: Target Legislation and Advocacy Issues

Impact: No funding impact is anticipated. Current appropriated funds are sufficient to provide non-monetary awards to volunteers. Expands the use of "Incidental Expenses" to purchase awards with appropriated funds. Improves recognition of valued volunteers.

Process: Request the Committee/Subcommittee reach out to USACE for legislative drafting services.

(4). Request: Provide ability to spend appropriated Recreation and Environmental Stewardship funds to set up cooperative agreements.

What: Provide authority for the ability to spend appropriated US Army Corps of Engineers (USACE) Recreation and Environmental Stewardship funds to set up cooperative agreements with adjacent federal or non-federal public entities for mutually beneficial work such as fire management, invasive species management, endangered species management, consolidated contract services for cleaning, mowing, janitorial, etc. on USACE and partner lands. This authority would be somewhat similar to the Good Neighbor Authority used by the US Forest Service and Bureau of Land Management.

Why: Many lands managed by USACE are adjacent to federal and non-Federal public entities that manage similar environments and facilities. USACE is prohibited from spending appropriated funds off of COE lands. This authority would streamline operations and save appropriated funds by allowing multiple agreements for mutually beneficial goals.

Impact: Saves appropriated funds and streamlines operations.

Process: Request the Committee/Subcommittee reach out to USACE for legislative drafting services.

(5). Request: Establish US Army Corps of Engineers (USACE) Federal Lands Transportation Program (FLTP) Dedicated Set Aside

What: Request Committee consider legislation or other actions that establishes a set aside for USACE at \$16 million annually. For USACE as currently enacted, H. R. 3684 provides in Federal Highway Administration, Highway Infrastructure Program or Division A, Sec 1101, that not less than \$7,000,000 shall be made available for each Federal agency otherwise eligible to compete for amounts made available under that section for each of fiscal years 2024 through 2028.

Why: Despite the economic benefits of the USACE recreation program and the extensive number of transportation infrastructure assets managed by the agency, USACE does not receive set-aside funding from FLTP to improve access to federal lands and waters, while agencies such as Fish and Wildlife Service and US Forest Service that attract a smaller share of visitors each year receive this set-aside funding. Even with a smaller land footprint, USACE transportation assets see a much higher use than the other federal agencies. As USACE deferred maintenance costs continue to stack up, this additional funding would provide critical investments in the highest priority road, bridge, tunnel and parking lot projects that

Impact: By not reassessing agency allocations for maintenance funding post-GAOA, these funding inequities only further exacerbates transportation infrastructure assets, leaving USACE to struggle with facing a worsening backlog while managing increased demand for recreation opportunities at USACE-managed sites.

Process: Request the Committee/Subcommittee reach out to USACE for drafting services or identify options to bring USACE in line with the benefits the other land management agencies receive.

Appropriations Bill Fiscal Year 2024

(1). Recreation Business Line, Operations and Maintenance Account

Request: Consider and support an amendment in the forthcoming FY 2024 Appropriations Bill, that the FY 2023 Recreation Program funding be allocated at not less than \$295,000,000 to continue the existing level of operation, maintenance, and repair of recreation facilities and public access. This represents the same amount as enacted for FY 2022's Recreation Program budget.

What: Request an explanatory statement that FY 2024 Recreation Program funding be allocated at not less than \$295,000,000 to continue the existing level of operation, maintenance, and repair of recreation facilities and public access.

Why: As presently proposed, the FY 2024 Recreation Program funding identified in the USACE Civil Works President's Budget is targeted at an historic low of \$240 million, reduced from FY 2022's \$295 million. This decline, if not remedied will be unsustainable and draconian in its impact.

2023 09-01 Corps Foundation 2023-2024 Advocacy Toolkit.xlsx
Section-Tab 2: Target Legislation and Advocacy Issues

In the scenario presented in the proposed FY 2024 \$240 million budget amount, the Recreation program will experience major reductions to routine labor and visitor services. The program would be left without basic funding for operations and maintenance including day-to-day labor for park rangers, maintenance staff for management of public use areas, staff support for management of volunteers and partnerships, limited or complete closure of visitor center operations, and contract support for trash removal, janitorial, mowing, and gate attendants.

Impact: Funding at \$295 million allows USACE to continue to provide public access at acceptable levels and avoids an increase in deferred facility maintenance backlog.

Process: Request the Committee/Subcommittee reach out to USACE for drafting services or identify options to bring USACE in line with the benefits the other land management agencies receive.

(2). Operation and Maintenance Account, Other Authorized Project Purposes

Request: Consider additional funding in the US Army Corps of Engineers (USACE) Operations and Maintenance Account, Other Authorized Project Purposes that not less than \$40,000,000 be allocated for the Recreation Business Line.

What: Request explanatory statement that of the additional funding provided in the Operations and Maintenance Account, Other Authorized Project Purposes, not less than \$40,000,000 shall be allocated for US Army Corps of Engineers Recreation Business Line to continue the operation, maintenance, and repair of existing recreation facilities and public access including unfunded infrastructure maintenance needed to sustain existing facilities at full capacity.

Why: USACE hosted a total of 272 MILLION visitors, in 2021 an increase of 16.3 million in just one year. USACE is the #1 Federal provider of water based outdoor recreation. As a result of increased visitation, many parks reached or exceeded their designed capacity every weekend. Visitor assistance and public safety is the primary concern for the USACE recreation mission. As such, Park ranger efforts were diverted to traffic management while visitors accessed areas closed, restricted or not designed for recreation use. Many parks were forced to deal with increase in vandalism, property damage, illegal access, and increases in trash and litter and traffic accidents. Impacts to infrastructure, maintenance and repair far surpassed the level of funding to manage the facilities safely. USACE NRM program accounts are underfunded, and the agency is often excluded from benefits of other agencies through significantly impactful federal lands and waters policy and funding mechanisms such as the Federal Lands Transportation Program, the Federal Lands Recreation Enhancement Act and the Great American Outdoors Act (GAOA). By not reassessing agency allocations for maintenance funding post-GAOA, these funding inequities will be further exacerbated leaving USACE with a worsening maintenance backlog while managing increased demand for recreation opportunities at USACE-managed sites.

Increasing Recreation Business Line funding requires the overall additional Operations and Maintenance Account, Other Authorized Project Purposes funding amount to increase in line at least with the Recreation Business Line increase. This directed amount of funding to the Recreation program is above that recommended by the Administration.

Impact: Additional funding allows USACE to continue to provide public access at acceptable levels and avoids an increase in deferred facility maintenance backlog.

Process: Request the Committee/Subcommittee reach out to USACE for drafting services or identify options to bring USACE in line with the benefits the other land management agencies receive.

Section - Tab 4: Identifies 118th Congressional Committee and Subcommittee Assignments Responsible for Legislation Affecting the USACE NRM Program

**118th Congressional Committees/Subcommittees Assignments Responsible for USACE NRM Program Legislation
Highlighted Yellow - Members with NO USACE Recreation Project in Jurisdiction**

Fiscal Year 2024 Appropriations Bill - NRM Program Annual Funding:

(APPROP S) US Senate Committee on Appropriations

These policymakers write the legislation that allocates federal funds to the US Army Corps of Engineers (Civil Works) on an annual basis. Appropriations are limited to the levels set by a Budget Resolution, drafted by the Senate Budget Committee.

(APPROP H) US House Committee on Appropriations

These policymakers write the legislation that allocates federal funds to the US Army Corps of Engineers (Civil Works) on an annual basis.

(EWD S) US Senate Subcommittee on Energy and Water Development

(EWD H) US House Subcommittee on Energy and Water Development

These Senate and House policymakers write the legislation that allocates federal funds to the US Army Corps of Engineers (Civil Works) on an annual basis.

Water Resources Development Act (WRDA) 2022 - Infrastructure & Environmental Policy:

(EPW S) US Senate Committee on Environment and Public Works

These policymakers oversee federal energy and environmental policy as well as our nation's transportation and infrastructure systems.

(T&I S) US Senate Committee on Transportation and Infrastructure

These policymakers' oversight and legislative responsibilities include Transportation, Federal Highway Administration, Public Buildings, Water Resources Development Act (WRDA)

(T&I H) US House Committee Transportation and Infrastructure

These policymakers have jurisdiction over all modes of transportation; they also have jurisdiction over other aspects of our national infrastructure.

(WRE H) US House Subcommittee on Water Resources and Environment

These policymakers oversee federal energy and environmental policy as well as our nation's transportation and infrastructure systems. Their oversight and legislative responsibilities include Transportation, Federal Highway Administration, Public Buildings, Water Resources Development Act (WRDA).

Revenue Policy - NRM Program Recreation Fee Retention:

(W&M H) US House Committee on Ways and Means

These policymakers exercise sole jurisdiction over revenue-raising matters such as fee retention, required to finance the federal government.
